## What's in the box?

- Faleemi 1080P Mini WiFi Security IP Camera
- Power Adapter
- Quick Start Guide
- Magnetic wall mount
- Wall mounting Tape

## Connections

## Download the Faleemi APP (Android / iOS) before doing the setup

Connect your mobile device to your WiFi and download the App "Faleemi" from the App Store or Google Play store, or scan below QR code to download it.

## Before configuring your camera, please read the points below.

- Please make sure your phone is connected to your **2.4GHz WiFi** (not cellular data and 5GHz WiFi) before doing the setup. Your 2.4GHz WiFi name (SSID) must be different from your 5.0GHz one.
- Please make sure your WiFi name and password do not have the special characters " # ", " ; ", " \ " .

If you are not sure, please go to your router settings to find this out.

**Note: THIS WILL NOT AFFECT THE 5GHz WIFI USE OF YOUR OTHER WIRELESS DEVICES :)**

- If you don't know how to go to your router settings, please visit our website [www.faleemi.com/blocks/router](http://www.faleemi.com/blocks/router) to find the instructions or contact us at [support@faleemi.com](mailto:support@faleemi.com).

Now, please follow below instructions to get your camera set up.

## Add camera

1. Please **put your camera close to your WiFi router** and plug it in, and then you will see the red light is blinking slowly.

2. Press the Set Button (a **protruded black Dot**) for about 3 seconds until you see the red light changes to a blue light. The camera has been in **WiFi configuration mode**.

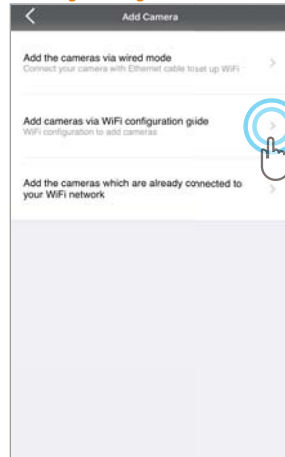

**CAUTION:** The button is small. Holding for longer than 10 seconds will reset the camera.

3. Open the Faleemi App, click on **[Add Camera]**.

4. Click on **[Add cameras via WiFi configuration guide]**.

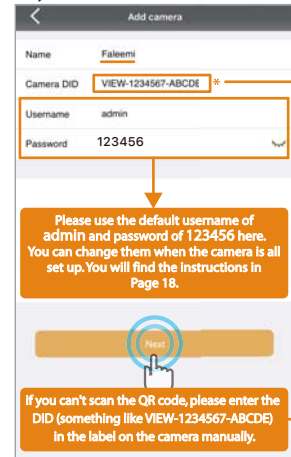

5. Please scan the QR Code at the bottom of the camera.

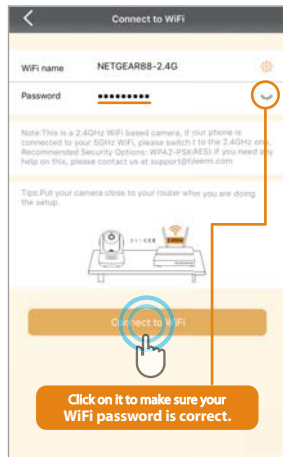

6. Click on **[The blue light is flashing slowly]**.

7. Type in the name you have selected for your camera and click on **[Next]**.

7. Input your 2.4GHz WiFi password and click on **[Connect to WiFi]**.

8. Place the camera 6 inches from the QR code on your phone and keep it still. If the scan is successful, the blue light will blink very rapidly.

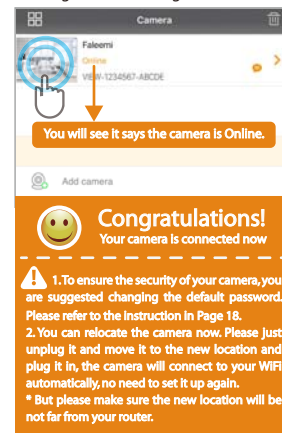

9. Click on **[Blue light has quickly flashed]**.

10. Connect to WiFi.

11. You will see it says the camera is **Online**. Congratulations! Your camera is all set up. **Click on the image** to enjoy viewing and controlling it now.

### Troubleshooting

1. If the connection was failed, the WiFi password you just input may be wrong. Please hold the "Set" button again for 3 seconds and start it over again..

2. If your WiFi password was correct but still failed.

(a). Please make sure your phone is connected to your **2.4GHz WiFi** (not 5GHz WiFi) before doing the setup.

(b). Your 2.4GHz WiFi name (SSID) must be different from your 5.0GHz one.

(c). Please make sure your WiFi name and password do not have the special characters "#", ";", ":", "\"", "\".

If you are not sure, please go to your router settings to find this out.

If you don't know how to go to your router settings, please visit our website

**www.faleemi.com/blocks/router** to find the instructions.

5. Click on [ ✓ ].

### How to record alarm video to the memory card?

1. Click on the icon [ > ].

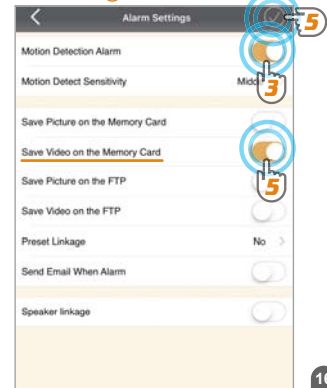

2. Click on [Alarm Settings].

3. Enable [Motion Detect Alarm].

4. Enable [Save Video on the Memory Card].

5. Click on [ ✓ ].

## How to view the recorded video on memory card?

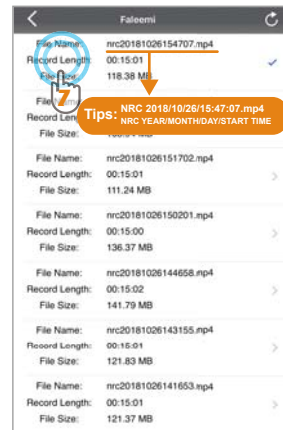

1. Click on **[Records]**.
2. Click on **[Memory Card]**.
3. Click on **[Camera]**.

4. Click on **[All]**, Select recording.
5. Select Date.
6. Click on **[✓]**.

7. Click on the file to playback the recorded video.

## How do i change my camera password?

To ensure the security of your camera, you are suggested changing the default password.

1. Click on **[>]**.

2. Click on **[Advanced Settings]**.

3. Click on **[User Settings]**.

4. Select **[admin]**, Click on **[>]**.

5. Enter your new password, Click on **[✓]**.

Record your new password here:

## Troubleshooting Frequently Asked Questions

For more setting guides, please visit our website:

<https://www.faleemi.com/faq>

If you don't find the instructions you are looking for there, please contact us at

[support@faleemi.com](mailto:support@faleemi.com).

<https://www.faleemi.com/faq>

**1. How to reset your camera (restore to factory default)?**

Push down the "Reset" button for around 10-15 seconds until the **red light changes to blink very quickly** and then let it go. If the reset is done successfully, the camera will reboot automatically.

2. If you will be away from your camera for a long time, for example, you will be on holiday for several months, there may be power outage or network disconnection.

**We suggest you using Timer Restart option.** ⚠

You can set the camera to reboot by itself during this time period.

**Please refer to this instruction to do the setup.**

<http://support.faleemi.com/help/reboot.pdf>

3. If you have several cameras, please set them up one by one according to the instruction from page 3. After all of them are set up, please follow below steps to use multi-view function.

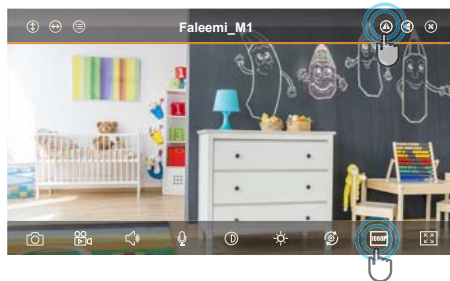

**4. How do i change my video stream resolution?**

Click on the icon  to change the resolution.

**5. I mounted my camera upside down, how do I flip my camera's video stream?**

Click on   to flip and mirror your camera.

**6. How do I find the WiFi MAC address of my camera?**

If you need the WiFi MAC address of the camera to connect it to your router, please take the photo of the label on the camera and send it to [support@faleemi.com](mailto:support@faleemi.com).

We will provide you with the WiFi Mac address.

**7. If I change the router, how do I reconnect the camera?**

- A.** We recommend that you change the WiFi name (SSID) and password for the new router to the same as the old router, so you don't need to reconnect your camera, please just replug it in and it will be online automatically. So do your other wireless devices.
- B.** If you can not change the new router WiFi name (SSID) and password, you just reconnect it according to the instructions again. **(page 3)**
