

P2P Service on ZAVIOR Mobile APP

Quick Guide

QR Code

| ZAVIOR Mobile APP | Camera QR Code |
|--|----------------|
| <div data-bbox="108 1624 715 1915"></div> <div data-bbox="231 1926 295 2004"></div> <div data-bbox="542 1926 606 2004"></div> | |

1. Download ZAVIOR

Use your mobile phone to scan the QR code on the cover page or search for ZAVIOR on your App store or Google Play.

2. Create an account or sign in with an existing account.

With an account will be able to sign in and access your devices from other mobile phone.

You may choose Local Login to sign in without an account, but your settings will not be saved on the cloud server.

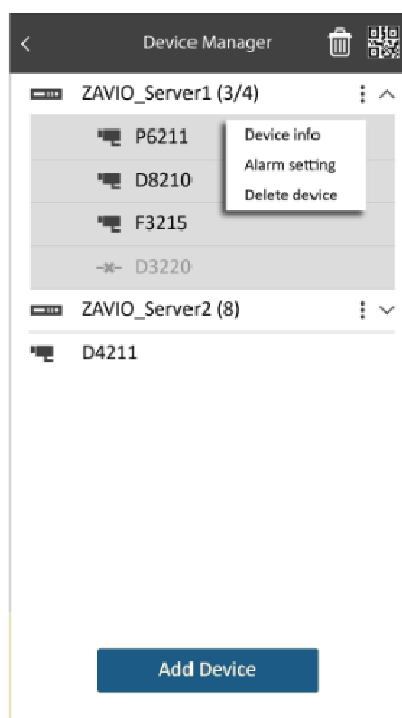

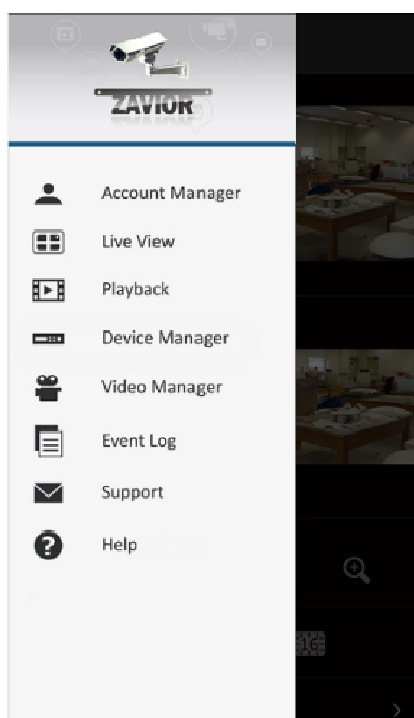

The sign-in screen features the ZAVIOR logo at the top. Below it are two tabs: 'SIGN IN' (selected) and 'CREATE ACCOUNT'. The sign-in form includes fields for 'Username' and 'Password', followed by a 'Sign In' button. Below the button are checkboxes for 'Remember password' (checked) and 'Auto login'. At the bottom, there are links for 'Local login' and 'Forgot password?'.

The create account screen features the ZAVIOR logo at the top. Below it are two tabs: 'SIGN IN' and 'CREATE ACCOUNT' (selected). The form prompts the user to 'Please enter the information to create an account for your own'. It includes fields for 'Username', 'Password', and 'eMail', followed by a 'Submit' button.

3. Scan QR Code to add camera

QR Code is available on the cover page and on the camera's web interface. Camera Web Interface → Main Menu → System → Network Advanced → P2P

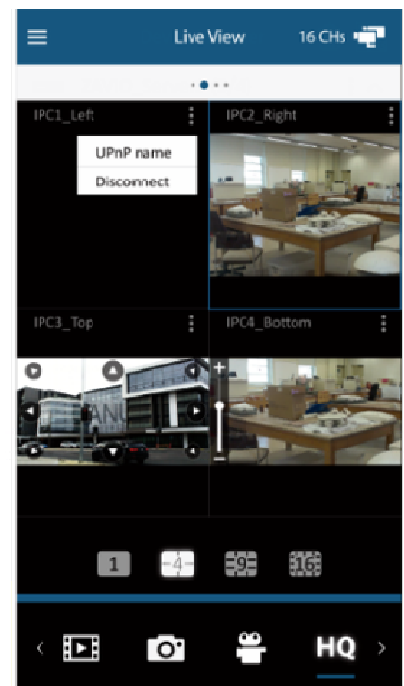

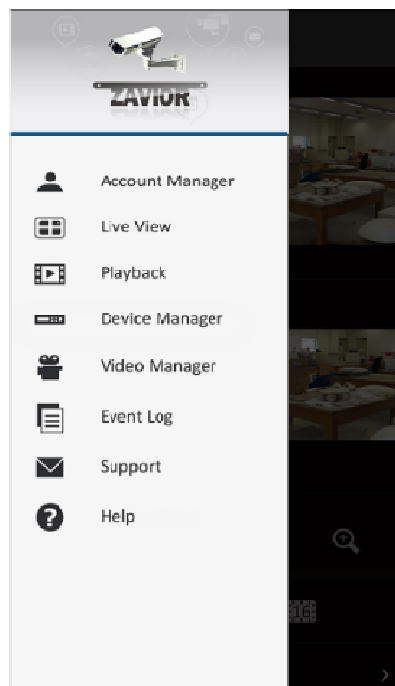

Note: Camera must be connected to WAN to enable P2P function (QR code).

4. Camera Live View

ZAVIOR supports up to 64ch Live View with adjustable display layout.

Other features includes shortcut to Playback page, manual record and snapshot, two way audio, optical and digital PTZ control.

5. Tech Support

Use the embedded tech support page to contact our support team directly.

ZAVIOR Instructional Video

Scan the QR code to watch ZAVIOR instructional video.

Subscribe to ZAVIO youtube channel for video updates.

About ZAVIO

Founded in 2006, ZAVIO has been focusing purely on IP surveillance from day one. Today we use this experience and our continuous pursuit for improvement to provide value to our customers in many critical ways, e.g. better image quality under challenging lighting conditions, substantially lower bandwidth and storage requirements, sophisticated installation tool for easier installation and maintenance, etc.

These differences are not seen on a spec sheet or at first glance, but definitely appreciated in the long run. So we encourage you to try and test our cameras. You will experience the difference.
